## Objective

A Computer Science professional seeking challenging opportunity to work for an organization to enhance my knowledge, skills, and techniques which can benefit the organization

## Experience

- ZIDIO** 05/2025 - 08/2025  
FULL STACK DEVELOPER INTERN
  - Collaborated with the development team to design, develop, and maintain full-stack web applications using technologies like React.js, Node.js, Express.js, and MongoDB.
  - Assisted in building RESTful APIs and integrating them with front-end interfaces, ensuring smooth and efficient data flow between the client and server.
  - Implemented authentication and authorization features using JWT for secure user sessions.
- Ordinance Factory Board** 07/2024 - 10/2024  
ITC Intern
  - Experienced an impactful internship at Ordnance Factory, where I gained knowledge in MySQL, PHP and engineering principles to enhance and manage internal system and process. This opportunity allowed me to develop technical skills and contribute to real-world projects.

## Education

- Madan Mohan Malviya University Gorakhpur** 2024 - 2026  
MCA  
8.15 CGPA
- Chhatrapati Shahu ji Maharaj University, Kanpur** 2021 - 2024  
BCA  
74.99%

## Skills

- Language : C++, JavaScript, SQL
- Tools & Technologies: React, Node, Express, MongoDB, Git/GitHub, HTML, CSS
- Operating System : Windows 10, MS Excel, MS office, MS PowerPoint
- Soft Skill : Quick Learner, Problem Solving, Teamwork

## Projects

- Excel Analytics**  
**Description:** A use can upload the excel and can analyse sheet as per the data  
**Tech Used :** React, Node, Express, MongoDB, Axios
  - Users can securely upload .xls or .xlsx files, which are then parsed on server-side to extract raw data
  - The extracted data is stored in a MongoDB database, leveraging its flexible, document-based structure to accommodate varying Excel file schemas
  - React.js is utilized on the front-end to create dynamic and interactive charts that visualize the uploaded Excel data
